PROFESSIONAL SUMMARY

Systems Engineer with over 5 years of experience architecting high-performance web solutions, custom e-commerce platforms, and tailored applications. Expert in advanced WordPress development (Custom Themes, Plugins, and Gutenberg blocks) seamlessly integrated with modern frontend tech stacks like React and Next.js. Proven track record of technical leadership, managing high-volume project pipelines, and leading multidisciplinary teams of up to 18 members. Deeply focused on Core Web Vitals, technical SEO, and UI/UX design aligned with business goals.

TECHNICAL SKILLS

- * CMS & Backend: WordPress (Custom Themes/Plugins), Gutenberg, PHP, MySQL, Elementor, Divi.
 - * Frontend Development: JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, HTML5, CSS3.
 - * Design & Tools: Figma (UI/UX), Git, GitHub, Bitbucket, Adobe Illustrator.
 - * Methodology & Testing: Scrum / Agile, Unit Testing with Jest, Core Web Vitals Optimization.
-

PROFESSIONAL EXPERIENCE

Clinmedia | WordPress & Front-End Lead

April 2025 – December 2025

- Provided technical leadership for an 18-member multidisciplinary team, successfully streamlining workflows to deliver over 60 high-quality websites per month.
- Developed custom WordPress functionalities, hooks, and extensions using PHP, React, and Tailwind CSS to go beyond native platform capabilities.
- Oversaw critical server infrastructure, database performance, hosting environments, and DNS management, achieving 99.9% uptime.
- Led technical troubleshooting and integrated custom CRM solutions with external financial APIs (Factura.city) to automate business processes.
- Optimized page speeds and technical architecture to satisfy Core Web Vitals, substantially increasing organic search rankings for clients.

ReCreate | Lead Front-End Developer

January 2024 – February 2025

- Designed and executed scalable architectures for e-commerce and marketing platforms using React, Next.js, and WordPress.
- Reduced server response times and server-side loads by refining routing systems and building highly efficient REST API/GraphQL endpoints.
- Built pixel-perfect, responsive components translated directly from complex Figma wireframes.
- Implemented robust automated testing workflows with Jest, significantly dropping production-level bugs and ensuring codebase integrity.
- Collaborated in a fast-paced Scrum agile environment using Jira and Git/GitHub for version control and peer code reviews.

Somos Academia | Developer & UI/UX Strategist

January 2022 – December 2023

- Built, customized, and maintained full-scale WordPress sites for an international client portfolio, ensuring strict visual quality and user experience standards.
- Developed comprehensive corporate visual identities, user personas, and brand style guides based on detailed market research.
- Facilitated internal technical workshops and provided mentorship on frontend technologies and WordPress best practices for junior team members.

Geomar | Front-End Developer

September 2021 – April 2022

- Engineered dynamic and responsive user interfaces using vanilla JavaScript, focusing on cross-browser compatibility and smooth interactions.
- Participated in the integration of multi-currency payment gateways and core web functionalities.
- Collaborated closely with backend developers on PHP and MySQL data integrations, utilizing Git for strict version control.

Demyo | Junior Front-End Developer

March 2021 – June 2021

- Collaborated within a development team to build responsive and reusable interface components using HTML5, CSS3, JavaScript, and Vue.js.
- Contributed to frontend structural layout updates for a production-stage web application.
